

MODULE 5 – WHERE DO WE WANT TO GO

LECTURE 6 – QUIZ

Please respond to the following three questions:

1. How did 9/11 impact COMMUNITY POLICING?

2. What three assets does COMMUNITY POLICING bring to the ground game?

3. Choose one of the following re: the 2013 Boston Marathon bombing incident:

a. Should the FBI have spied on the perps even more than they did, to prevent and catch them? But we don't like that, do we?

b. Do we think the cops (or COMMUNITY POLICING Officers?) in the **perps'** neighborhood areas during the PLAN phase of their crime should have "paid more attention to them (spied on them, maybe with drones or bugs, or in mosques)? Like the Secretive Rogues and Inquisitor Detectives did, by using stool pigeons and snitches, and interrogating them? But we didn't like that kind of "**waterboarding**," did we? Or should we just continue to rely on detectives to push the speed limits a little harder, and close our eyes to the things they do until somebody complains too much, and then act outraged and further constrain them? Yeah, stop them from doing what we want them to do, but only when we hear about it. Would that work?

c. Do we think informed and alert neighbors and friends should have been on the lookout for their nefarious preparation activities? But who was supposed to inform and alert them – the "**Inform-and-Alert Bunny?**"

d. Or do we say "never mind," again, "**macht's nichts**," again, "**fuggedaboutit**," again, and just let them go blow up people? It probably won't be you or me next time. Will it? Nah, what are the chances? It'll probably be somebody else we don't even know. Oh, so that's OK?

BUT WHAT DO YOU CHOOSE?

See - if you don't choose Options a, b, or c, then will you not have automatically chosen Option d - BY DEFAULT? And isn't that what we're doing now? Does the term "déjà vu" ring a bell here? Ding, ding, ding.
